

Camden-Frontier School District  
Bylaws & Policies

---

**8510 - WELLNESS**

As required by law, the Board of Education establishes the following wellness policy for the Camden-Frontier School District.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education, the District shall:

1. Nutrition education shall be included in the Health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
2. Nutrition education standards and benchmarks shall be age-appropriate and culturally relevant.

B. With regard to physical activity, the District shall:

1. **Physical Education**

A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the standards and benchmarks established by the State.

2. **Physical Activity**

- a. Physical activity should not be employed as a form of discipline or punishment.
- b. Schools shall offer a wide range of physical activities outside the regular school day that meet the needs, interests, and abilities of all students, including males, females, students with disabilities, and students with special healthcare needs.
- c. In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day, intramurals and clubs before and after school, and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special healthcare needs.

C. With regard to other school-based activities the District shall:

1. The schools shall provide at least thirty (30) minutes daily for students to eat.
2. The school shall provide attractive, clean environments in which the students eat.
3. Students, parents, and other community members shall have access to, and be encouraged to

use, the school's outdoor physical activity facilities outside the normal school day.

4. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
5. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy 8500, entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages as well as to the fiscal management of the program.
- B. As set forth in Policy 8531, entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).
- C. The food service program will strive to be financially self-supporting; however, if it is necessary to subsidize the operation, it will not be through the sale of foods with minimal nutritious value.
- D. The food service program will provide all students affordable access to the varied and nutritious foods they need to be healthy and to learn well.
- E. All foods available on campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, from vending machines, for classroom parties, or at holiday celebrations.
- F. All foods available to students in the dining area during school food service hours shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods available to student a la carte or from vending machines.
- G. The school food service program may involve students, parents, staff, and school officials in the selection of competitive food items to be sold in the schools.
- H. The food service program shall be administered by a qualified nutrition professional.
- I. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
- J. All food service personnel shall receive pre-service training in food service operations.

The Superintendent shall develop administrative guidelines necessary to implement this policy, including, but not limited to, the manner in which the implementation of this policy shall be regularly evaluated by the principal of each school. The Board designates the Superintendent and Food Service Director as the individuals charged with operational responsibility for verifying that the District meets the goals established in this policy.

The Superintendent shall report on the District's compliance with this policy and the progress toward achieving the goals set forth herein when requested to do so by the Board.
